- Do not place appliance on or near a hot gas burner, hot electric burner, or in a heated oven.
- To prevent the risk of fire, electric shock, or personal injury, do not place the cord, plug, or unit near water or other liquids.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge unless they are provided with supervision and instruction concerning use of the appliance by a person responsible for their safety.
- Refrain from using attachments that are not recommended by the appliance manufacturer, as this may result in fire, electric shock, or personal injury.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use appliance outdoors or for commercial purposes.

- Do not let the cord touch hot surfaces or hang over the edge of tables or counters.
- Do not deep-fry food in the Rapid Skillet.
- To avoid injury, we recommend allowing the Rapid Skillet to return to room temperature before detaching Control Probe from Base.
- Always be sure to unplug the appliance from outlet prior to assembly, disassembly, cleaning, and storage.
- When using extension cords, make sure the electrical rating of the wire is compatible with the appliance.
- Allow Skillet to cool completely before moving, cleaning or disassembling.
- Always attach the Control Probe to Skillet first before plugging the appliance into the outlet. Before unplugging, make sure the Skillet is turned to Off, then remove the plug.
- Be cautious when moving the appliance if there are hot liquids inside.

- Improper use of the Rapid Skillet can result in property damage or even in personal injury.
- Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not completely fit in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

1) The marked electrical rating of the cord or extension cord should be at least as great as the electrical rating of the appliance;

3) The longer cord should be arranged so that it does not drape over the countertop or table top where it can be pulled on by children or tripped over unintentionally.

USING YOUR SKILLET

Clean the Rapid Skillet and all of its components prior to assembly and use. **DO NOT** use the Skillet near water or other liquids with wet hands or while standing on a wet surface. Make sure the Handles are securely fastened to the Base prior to each use. Do not touch the Base or Non-stick Pan without heat protective cooking gloves while the Skillet is in use.

Note: When using your Rapid Skillet for the first time, you will need to attach the Knob to the Glass Lid with a Phillips-head screwdriver.

1. Set the Base on a clean, stable, and dry surface.
2. Unwind the power cord to the preferred length. Inspect the cord for any sign of damage or significant wear.
3. Plug the Control Probe Connector into the Socket located on the Base of the Skillet. Be sure to properly align the Connector’s single prong with the middle hole before pushing the Control Probe in.
4. Make sure the Temperature Control Dial located on the Control Probe is set to Off and then plug your Skillet into an outlet or power supply.
5. Turn the Temperature Control Dial clockwise to Low. It is strongly recommended that you do not begin cooking on a high temperature as this will most likely cause food to splatter or even burn when placed in the Non-stick Pan.
6. Put your ingredients into the Non-stick Pan. Allow to cook for several minutes. Increase the heat until you reach the temperature appropriate for your recipe (see the Temperature Settings Guide on page 9).
7. When you are finished cooking with your Rapid Skillet, turn the Temperature Control Dial to Off. Wait for your Rapid Skillet to cool before cleaning.

The Temperature Control Dial has 3 Heat Levels. The Indicator Light located on the Control Probe will glow orange when the Skillet is turned on.

**Note:** You may want to use the Glass Lid to increase the Heat Level or cooking time. When placed over the Non-stick Pan, the Lid locks the heat and moisture in the Skillet, causing foods to cook faster. This also prevents food from drying out.

**NON-STICK PAN**

The Rapid Skillet’s non-stick surface helps to prevent food from adhering to the Pan. Metal utensils may scratch or dent the Non-stick Pan. To avoid damaging your Dash Rapid Skillet, make sure to use only wooden, nylon, or silicone cooking utensils when preparing your food.
MAINTENANCE

Never use abrasive cleaning agents to clean your appliance as this may damage the Skillet. To prevent damage to the Non-stick Pan, make sure to dry thoroughly after washing. Any other servicing should be performed by an authorized service representative.

CLEANING

• Turn the Temperature Control Dial to the Off position before unplugging and cleaning. The Non-stick Pan should be cool before attempting to clean.

• Do not submerge the Base or Control Probe in water or other liquids. Instead, unplug the Control Probe and place in a safe, dry place. Fill the Non-stick Pan with warm, soapy water and gently scrub with a sponge until clean. Carefully rinse the Pan so that no soap remains, making sure not to wet the Control Probe Socket.

• Wash the Lid in warm, soapy water.

• Wipe down the Base with a damp cloth.

• Thoroughly dry the Skillet before storing.

**VEGETABLE STIR FRY**

**INGREDIENTS**

- 1 large red bell pepper, thinly sliced
- 1 yellow bell pepper, thinly sliced
- 1 crown of broccoli, cut into florets
- 3 large carrots, thinly sliced
- 2 cups snow peas
- 2 cups green onions, chopped
- 3 cloves garlic, minced
- 1 tsp sesame oil
- 1 tbsp soy sauce
- 1 tbsp sesame seeds
- salt and pepper (to taste)

**DIRECTIONS**

Set your Skillet to medium-low heat. Put the peppers, broccoli, carrots, snow peas, and green onions in the Skillet. While stirring the vegetables, add in the garlic, sesame oil, soy sauce, salt, and pepper. Cover with the glass lid, and cook for about 15 minutes, stirring occasionally. The vegetables should be crunchy but not hard. Top with sesame seeds. Serve over a scoop of white or brown rice.
**CHICKPEA STEW**

**DIRECTIONS**

In your Skillet, sauté the onions and bell peppers in 1 tbsp of oil until they become translucent.

Add the garlic, pepper flakes, and cumin. Stir for about 1 minute before removing from Skillet and setting aside.

Add the oil and chicken. Let the chicken cook on medium heat until it starts to brown. Flip and brown the other side. Place chicken on the plate with the vegetables.

Deglaze the Non-stick Pan by pouring in some of the juice from the canned tomatoes.

Once the solids in the pan are dissolved, add the chicken, vegetables, the rest of the tomatoes, chickpeas, and cranberries.

Cover and let simmer on low for about 30 minutes or until the chicken is cooked through.

**INGREDIENTS**

- 4 boneless chicken thighs
- 2 tbsp oil, divided
- 1 medium onions, chopped
- 1 green bell peppers, chopped
- 1 garlic cloves, chopped
- dash of red pepper flakes
- 1 tsp cumin
- 1 cans (15 ½ oz) diced tomatoes, undrained
- 1 cans (15 ½ oz) chickpeas, undrained
- ½ cup dried cranberries
- dollop of plain yogurt
**Meatballs**

**Ingredients**
- 3 lb. ground beef (15-20% fat)
- 3 eggs
- 3-5 cloves garlic, crushed
- 1¼ cups Italian style breadcrumbs
- 1¼ tsp salt
- ¼ tsp coarse black pepper
- 1 loose cup Italian parsley, stems removed and chopped
- ¾ cup grated romano cheese
- 2 tbsp extra virgin olive oil

**Directions**
Beat the eggs in a bowl. Add garlic, parsley, salt, and pepper and mix until well-combined. Pour mixture into a large bowl with the ground beef. Add cheese and breadcrumbs.

Mix well. Roll into balls that are about 1¾ inches in diameter. Cook meatballs in the Skillet, flipping them occasionally so that all sides are lightly browned.

Use tongs or a slotted spoon to remove the meatballs and drain them on a plate covered with paper towels.

Pour tomato sauce into the Skillet, but do not turn it on. After the excess oil has drained off, drop meatballs in your homemade tomato sauce. Allow meatballs to sit and marinate in the sauce. When ready to serve, turn on the Skillet and set to medium heat. Cook the meatballs until the sauce begins to boil. Let simmer for a few minutes.
