IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should be followed, including:

- Read all instructions.
- When using electrical appliances, basic safety precautions should be followed including:
- Read all instructions.
- Remove all bags and packaging from appliance before use.
- Never leave appliance unattended when in use.
- Make sure the appliance is cleaned thoroughly before using.
- Do not use appliance for other than its intended use. For household use only. Do not use outdoors.
- Close supervision is necessary when any appliance is used by or near children.
- To prevent electric shock, do not submerge the cord, plugs, motor unit, or any electrical parts in water or other liquids.
- Do not operate the machine without ice. Do not use the appliance to shave or crush substances other than ice.
- Do not place your fingers in the appliance, as the blades are sharp and may cause injury.
- Do not attempt to sharpen the blades.
- In order to prevent the Dash Shaved Ice Maker from overheating, do not operate this appliance for more than 2 minutes continuously. Allow the appliance to rest in between uses.
- Do not operate this appliance with a damaged cord, damaged plug, after the appliance malfunctions, is dropped, or damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.
- For maintenance other than cleaning, please contact StoreBound directly at 1-800-898-6970 from 7AM-7PM PT Monday-Friday or by email at support@storebound.com.
- Do not place appliance on or near a hot gas burner, hot electric burner, or in a heated oven.
- Refrain from using attachments that are not recommended by the appliance manufacturer, as this may result in fire, electric shock, or personal injury.
- Do not let the cord touch hot surfaces, or hang over the edges of tables or counters.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge unless they are provided with supervision and instruction concerning use of the appliance by a person responsible for their safety.
- Always be sure to unplug the appliance from the outlet prior to moving, cleaning, storage, and when not in use.
- StoreBound shall not accept liability for damages caused by improper use of the appliance.
- Improper use of the appliance can result in property damage or even in personal injury.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not completely fit in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.
- A short power supply cord is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. An extension cord may be used if care is exercised in its use. If an extension cord is used, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance. The extension cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over unintentionally.

SETTING UP YOUR DASH SHAVED ICE MAKER

NOTE:
You may want to clean your Dash Shaved Ice Maker before first using. If so, refer to pages 10-14 for instructions and details.

1. Place the Base on a stable and dry surface.

2. Install the Motor Unit on the Base.

3. Align and insert the Exterior Bowl onto the assembled Motor Unit and Base. The two notches on the side of the Exterior Bowl should fit into the two notches on the inside of the Motor Unit.

   Lastly, plug in the Power Cord.

4. Place ice cubes inside the Interior Bowl. The bowl should be filled to the top level. If the ice has been in the freezer for a long time, it may be too hard and may need to rest at room temperature for a few minutes before shaving. The machine will then produce a fluffier snow.

   1. Place the Clear Lid on top of the Interior Bowl, locking it into place by aligning the fin-shaped notch on the lid with the corresponding notch on the Motor Unit.

   2. Place an empty bowl on the base of the unit. This bowl will be used to collect the shaved ice.

   NOTE: At this time you may want to insert the Ice Guard, which helps the ice shavings go more directly into the bowl. Simply slide the Ice Guard into place so that the notches on the Ice Guard and the Exterior Bowl align. (See red arrows on the left for reference)

   3. To activate the machine, turn the lid counter clockwise until the fin-shaped notch activates the Safety Switch. To stop the shaving process, turn the lid clockwise to deactivate the Safety Switch. For optimal results, hold onto the lid during the shaving process to ensure all ice is shaved.

   4. Unplug the Dash Shaved Ice Maker after each use.

SHAVED ICE MAKER

RECIPE BOOK
**DIRECTIONS:**

1. Assemble your Dash Shaved Ice Maker.

2. Blend or purée your fruit in a food processor or blender. Pour the purée into a saucepan and add the rest of your ingredients and sugar or sweetener. Cook over medium heat, stirring occasionally until boiling. Turn the heat down to low and continue to simmer for 5 minutes, before removing from the heat. Let cool, then strain if necessary.

3. Shave your ice using the Dash Shaved Ice Maker. Make sure that the syrup is chilled before pouring over your shaved ice. Pour a tablespoon or two of syrup over your shaved ice and enjoy!
